Projects

TUM.ai Makeathon – Artly (AI Art Assistant)

Backend Developer | Apr 2025

- Built a responsive AI app using Flutter and Python with the OpenAI API to analyze artwork and suggest suitable references with 75% accuracy.
- Engineered backend & prompt system; delivered prototype in 48h with a 4-person team.

LevelUp – Gamified Fitness App

Product Designer & Developer | Feb 2025 – Present

- Developed anime-inspired mobile app (Flutter/Dart) with progress tracking & rewards
- Led full-stack development and UX-focused feature design (e.g., Trace/log analysis tools).

Xio – Personal AI Assistant (LLM)

AI Developer | Jun 2024 – Present

- Created a voice-interactive AI assistant using Python, OpenAI API, LLaMA API & Azure Speech.
- Fine-tuned LLM for personalized user experiences with real-time input/output.

Technical skills

Programming Languages: Java, Python, Haskell, C++, HTML

Frameworks/Tools: Flutter, Git, Android Studio, Microsoft Azure, React

Software: IntelliJ IDEA, MS Office, Visual Studio, Gitlab, PyCharm

Languages: English (native), German (native), French (B1)

Education

B.Sc. Electrical Engineering and Information Technology

Munich University of Applied Sciences | March 2025 – Expected Graduation: June 2028 | Munich, Bavaria

- **Relevant Modules:** Physics, DC Networks, Electric and Magnetic Fields

B.Sc. Computer Science with Computational Linguistics (incomplete)

Ludwig-Maximilians-University Munich | September 2022 – April 2024 | Munich, Bavaria

- **Completed coursework:** Programming & Modeling with Haskell, Information Retrieval

General University Entrance Qualification (Abitur)

Geschwister-Scholl-Gymnasium | September 2019 – June 2022 | Münster, NRW
